COSTARS is the Commonwealth's cooperative purchasing program managed by the Bureau of Procurement. The program is an effective tool for Pennsylvania's local public procurement units (tax-exempt,

non-profit organizations that receive public funding for procurement), state-affiliated entities and suppliers to do business with each other through contracts that have been established by the Department of General Services. Examples include furniture, heavy equipment rental, office supplies, maintenance, repair and operation equipment and supplies, sodium chloride (road salt), vehicles and IT hardware.

Currently, more than 9,000 eligible entities are taking advantage of the time and cost-saving benefits of the COSTARS Program. It is estimated that COSTARS members spend more than \$1 billion annually by purchasing from COSTARS-authorized suppliers, while saving millions of dollars of taxpayer money in their procurement process.

Our goal is to provide competitively priced contracts for eligible participants (members) and increased business opportunities for suppliers.

Green Procurement

The Commonwealth of Pennsylvania is a significant purchaser of materials and services and is uniquely positioned to leverage our purchasing power to influence both price and availability in the marketplace.

“Green” or **Environmentally Preferable Procurement** (EPP) is the selection of products and services that have a lesser or reduced effect on human health and the environment when compared with competing products or services that serve the same purpose.

Our policy is to analyze each item during the bid process to determine what EPP options are available. The “green” option is utilized whenever the product or service in question is comparable in quality, availability, and price.

Electronic bidding is the transfer of proposal bid data between the Commonwealth of Pennsylvania and suppliers electronically via the Internet using digital ID and encryption technology and it will supplement or replace traditional paper bid documents.

With Electronic Bidding, when the supplier digitally signs and submits a bid via the Internet, no paper is required. With electronic submission of bids, the amount of data entry and paper waste on both sides is greatly reduced.

Facsimile Bids – Facsimile Bids are not accepted for any reason.

Security – If Bid and/or Contract Security is required, the bid solicitation document will indicate the exact type and amount of the security needed.
